The determination of which guaranty association will provide coverage and the maximum coverage limit provided will depend on several factors including your state of residency, where the insurance company was licensed, and whether any statutory coverage exclusions or limitations apply. The guaranty association of Pennsylvania, as PTNA's and ANIC's domiciliary state, may provide coverage in accordance with the Pennsylvania statutory limits in the event that the guaranty association of the state where you reside does not provide coverage. Please note that this chart does not depict the specific states where PTNA and/or ANIC were licensed, and licensure is a factor in determining which guaranty association will provide coverage.
